Education

Atl Academy

May 2025 – September 2025

Mobile Application Development
(Android) 📜 Official Diploma ↓

<https://atlacademy.az/certificate/b2edab48a91350>

Skills

Android Development

- Kotlin
- MVVM & Clean Architecture
- XML-based UI Design
- Room Database & SQLite
- Firebase
- Dependency Injection (Hilt)
- Coroutines & Asynchronous Programming
- REST API Integration
- Material Design Principles

Work Experience

🕒 Android Development Experience

📅 2025

- As the final project of my training at ATL Academy, I designed and delivered “Mova”, an Android application for movie enthusiasts, built using Kotlin, MVVM, Retrofit, Coroutines, Base Fragment, and Flow.
- I am currently contributing to a real-world project, “HeyatYolu”, a mobile platform designed to permanently preserve the memories of departed individuals in digital form.
- In the next phase, I plan to fully develop and complete a new project called “Herac”, followed by its release on the Google Play Store.

🔧 Tools & Technologies

- Android Studio, Git & GitHub, Firebase, Material Design, LottieFiles, Postman, Figma (for UI prototyping)
